\* If rebates total more than \$600 in a calendar year, Vectren is required by law to provide appropriate tax forms to the builder.

\*\* Energy Factor (EF) is the overall efficiency rating for water heaters. Please visit [www.vectren.com](http://www.vectren.com) for a list of qualified water heaters.

\*\*\* Home must have a HERS rating of ≤85 AND meet all ENERGY STAR® Thermal Bypass Requirements. Home must have a ≥92% AFUE natural gas furnace & ≥.62

Energy Factor storage natural gas water heater or ≥.82 Energy Factor tankless water heater. Builder must submit a copy of an authorized ENERGY STAR® new home energy rating certificate summary and/or invoices for furnace and water heater from an authorized ENERGY STAR® provider/retailer. Qualifying homes must utilize natural gas for all space heating needs.

This completed form and a copy of the home certification and/or invoice(s) for appliances must be provided to receive a rebate(s). I certify that I have purchased the product(s) and/or service(s) indicated on this form, and the product(s) was/were installed at the address indicated. **I understand that random inspections may be conducted to verify installation according to the terms and conditions.** I have read and understand the general eligibility, terms and conditions associated with this program. I am providing the requested information solely to be eligible to participate in this program and request that the personal information supplied by me be treated as confidential to the maximum extent possible. I acknowledge and agree that Vectren Energy Delivery is not warranting any equipment, nor will it be liable for any personal injury or property damage caused by the equipment.

Builder's Signature: \_\_\_\_\_ Date: \_\_\_\_\_

## Terms and Conditions

**General Eligibility:** For a current list of qualifying equipment, visit [www.vectren.com](http://www.vectren.com) or call 1-800-227-1376. This offer provides rebates for the purchase of new installed qualifying products and/or services, and is dependent on the purchase of qualified space heating, water heating and achieving specified HERS ratings. Offer valid for home builders constructing a natural gas home in the Vectren Energy Delivery of Indiana natural gas service territory. The rebates on this form are available to single-family homes only; multi-family buildings are NOT eligible. All builders/applicants must complete a W-9 to receive a rebate.

**Verification:** Vectren Energy Delivery of Indiana reserves the right to verify sales receipts and/or installations of products and services and that the equipment installed meets program requirements before issuing rebates. A random inspection may be conducted to verify installations.

**Program Modifications:** Vectren Energy Delivery of Indiana reserves the right to alter or discontinue these rebate offers at any time without notice. Rebate funds are limited and are available on a first-come, first-served basis.

**Disclaimer:** Vectren Energy Delivery of Indiana does not guarantee that energy efficiency measures purchased and installed or services provided through this program will result in energy and costs savings. Vectren Energy Delivery of Indiana reserves the right to deny or limit any rebate request. In addition, no warranties on product or service installations are provided by Vectren Energy Delivery of Indiana, nor does the program warranty, guarantee or endorse the energy efficiency services provided by any specific contractor participating in the program. Please allow up to eight (8) weeks to receive your rebate.

**Eligibility Dates:** All forms must be postmarked within 90 days of home certification or purchase date of equipment, if applying for appliance rebates only. Vectren Energy Delivery of Indiana reserves the right to alter or discontinue this program or related rebates at any time without notice.

## Contractor Instructions:

Verify that natural gas utility at the installation address is Vectren Energy Delivery of Indiana.

Chimney liners must be installed where atmospherically-drafted equipment remains in the residence. Installers must complete flue closure protocol where a high efficiency furnace and/or water heater is installed and the chimney has no other use; where the water heater is power vented through the sidewall or is fueled by electricity (refer to flue closure protocol); The furnace must be a sealed combustion unit with combustion air supply provided from outside the home to reduce whole-house air infiltration.

This form has no cash value. **Please retain a copy for your records.**
